As demand for electricity and steel grows to support economic growth

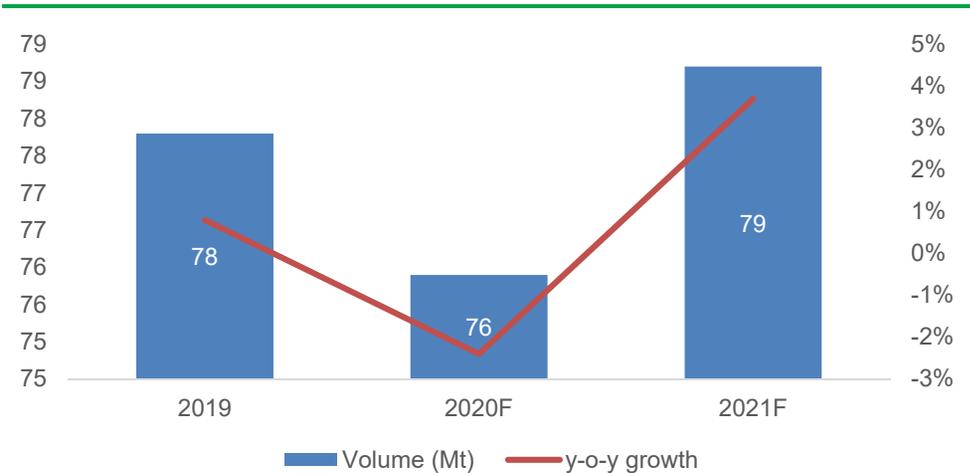

SEA electricity demand more than double to 2040

Source: Southeast Asia Energy Outlook 2019, International Energy Agency 2019

ASEAN (5) steel demand grows moderately in the short-term

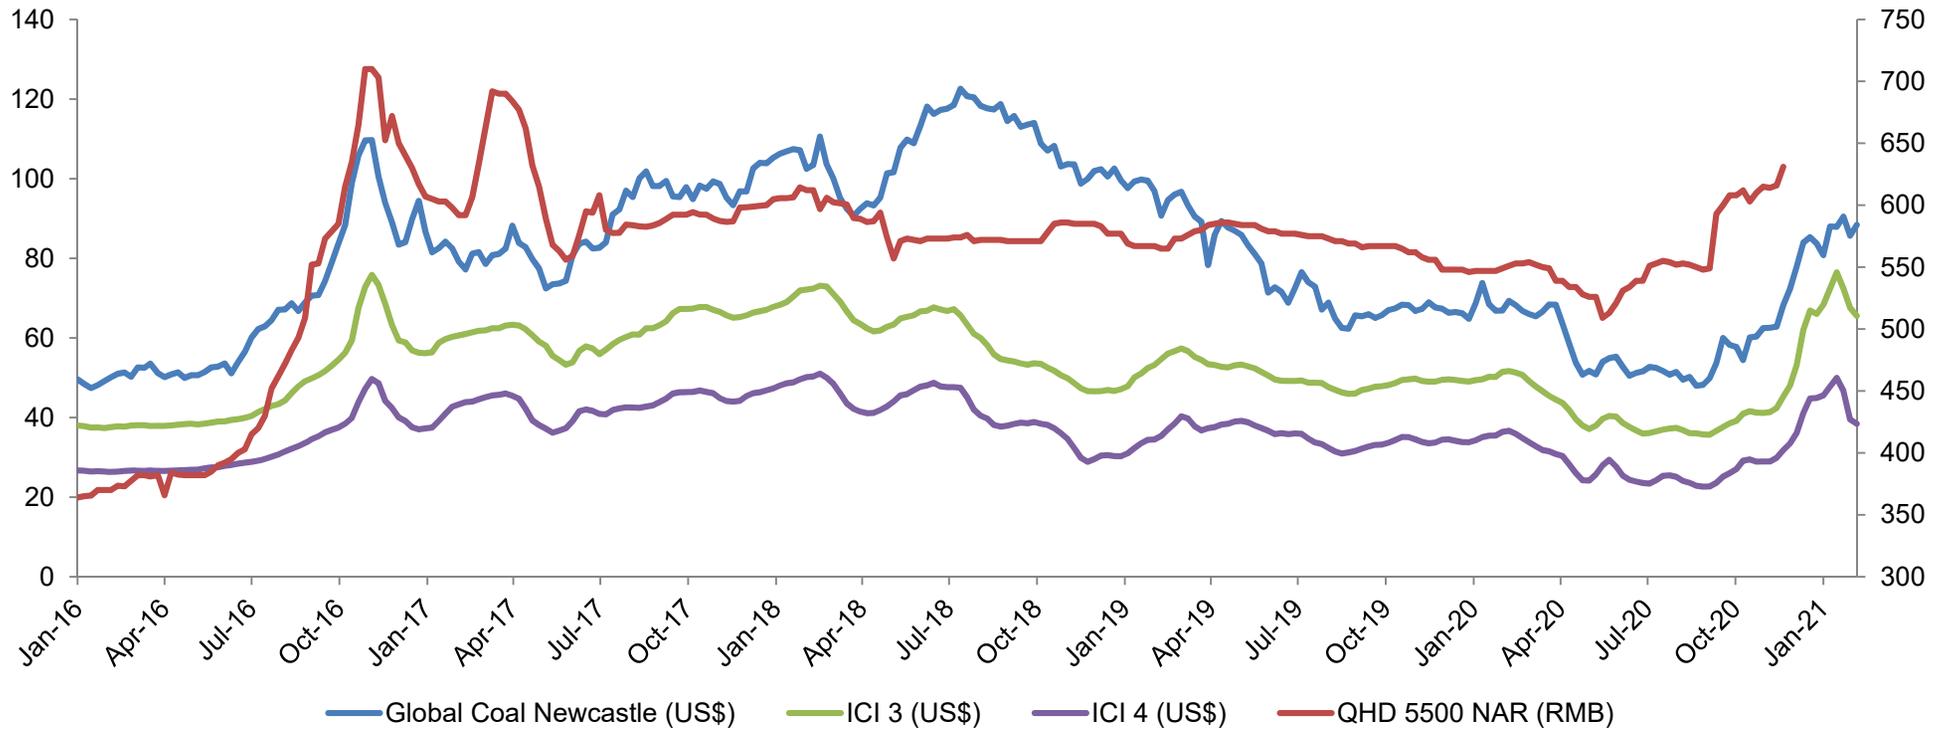

ASEAN (5): Indonesia, Malaysia, Philippines, Thailand, Vietnam
Source: Worldsteel Association Short Range Outlook June 2020

Overview of Southeast Asia

- ❑ The region is home to around 655 million people and 45 million people is still without access to electricity.
- ❑ Its growth in electricity demand, at 6% CAGR, has been among the fastest in the world as the region aims for universal access to electricity by 2030.
- ❑ Coal has been the fastest growing fuel in SEA's energy mix.
- ❑ Coal with low pollutant content will be more favoured in the market as many countries try to control emission and new power plants utilize advanced boiler system.

Stronger Demand and Tight Supply Drive Price Rally

- ❑ The slowing economy and decline in power demand impacted coal industry in most part of 2020.
- ❑ Stricter import control from China in 3Q20 curtailed demand from seaborne coal further in the already oversupplied market, and coal suppliers adjusted production volume responding to the demand downturn.
- ❑ However, seaborne coal market began to rebalance in 4Q20. The reopening of economic activities and colder winter in Northeast Asia have boosted power demand in key coal importing countries. Coupled with the limited supply due to La Nina, seaborne market prices rallied in the end of 2020.

adaro 

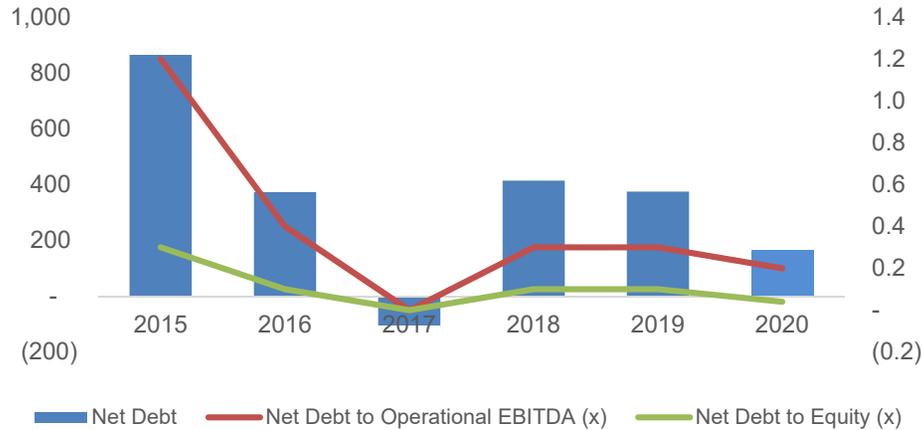

Performance of Adaro Energy

Solid financials backed by strong operations

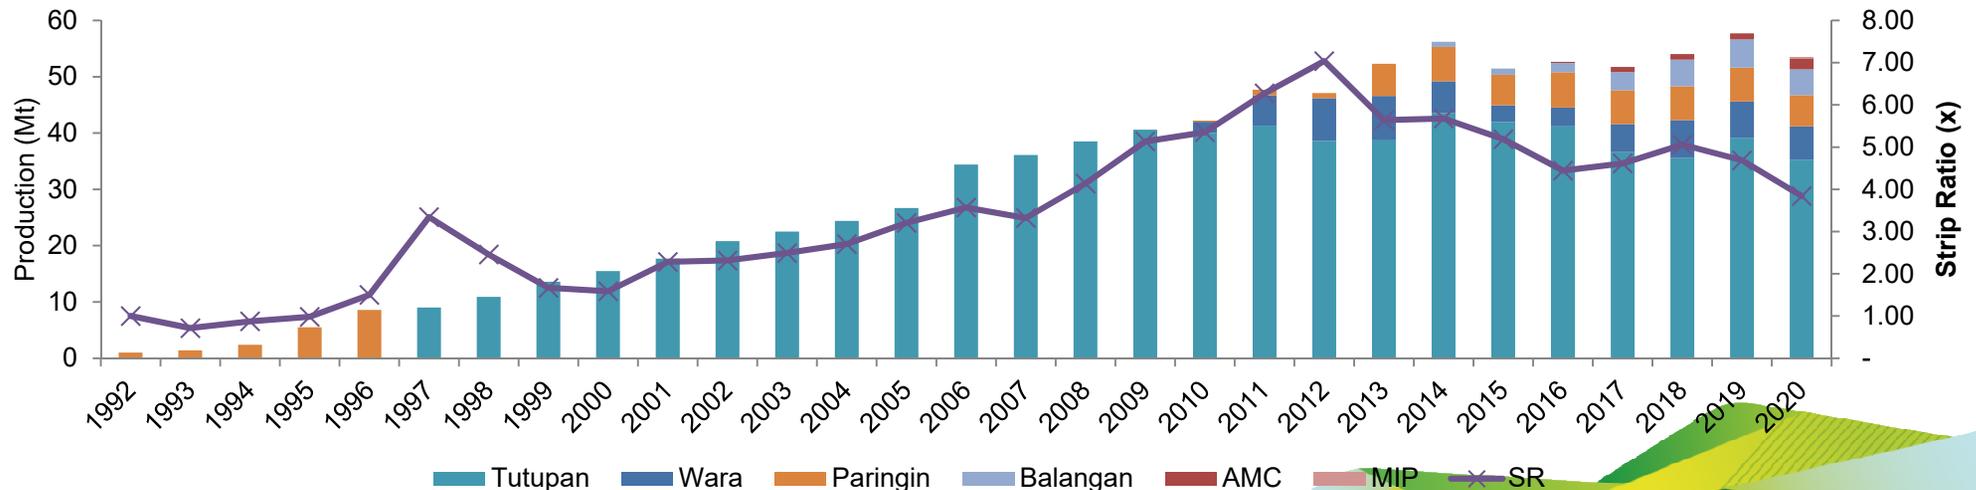

Improving financial position

Strong cash balance and free cash flow generation

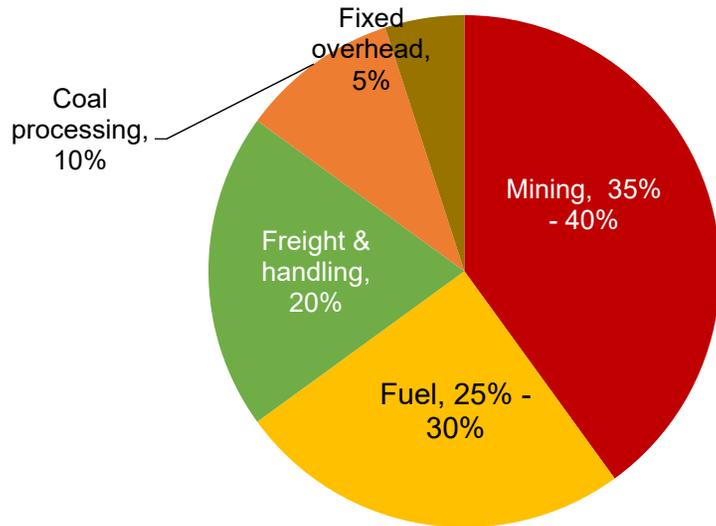

Over two decades of production experience through various coal cycles

Cost control – key for strong performance

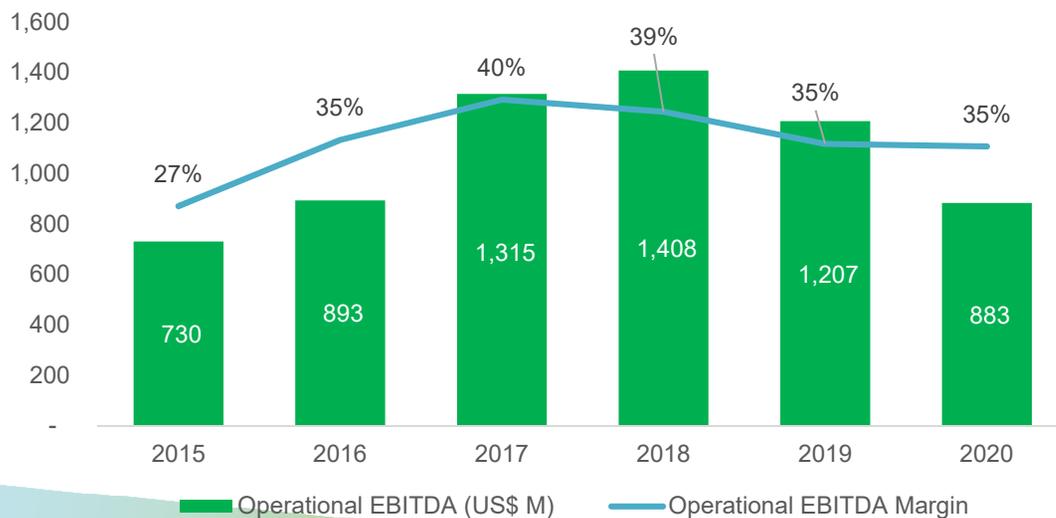

Adaro's estimated coal cash cost breakdown (2020)

Electrification to reduce the usage of diesel gensets

Strong operational EBITDA generation and healthy operational EBITDA margin

- Consistently delivers on operational EBITDA target and performed in-line with guidance.
- Healthy operational EBITDA margin on the back of better cost control from integrated business model.

Operational excellence and efficiency

We are able to deliver solid results amid the challenging market

OPERATIONAL	2020	2019	% Change
Production (Mt)	54.53	58.03	-6%
Sales (Mt)	54.14	59.18	-9%

Snapshot of Adaro Energy

Who We Are

IDX-listed integrated mining and energy company with eight business pillars built to create value and achieve sustainable growth

Integrated pit-to-power business model with control over each part of the coal supply chain

Eight business pillars to support future growth

Our strategy to create maximum value

- ❑ Organic growth from current reserves base.
- ❑ Focus on improving efficiency of coal supply chain and cost control.
- ❑ Product diversification, increase reserves and diversify location.
- ❑ Continue to deepen integration and improve contribution from non-coal mining businesses.

Adaro Power & Adaro Water

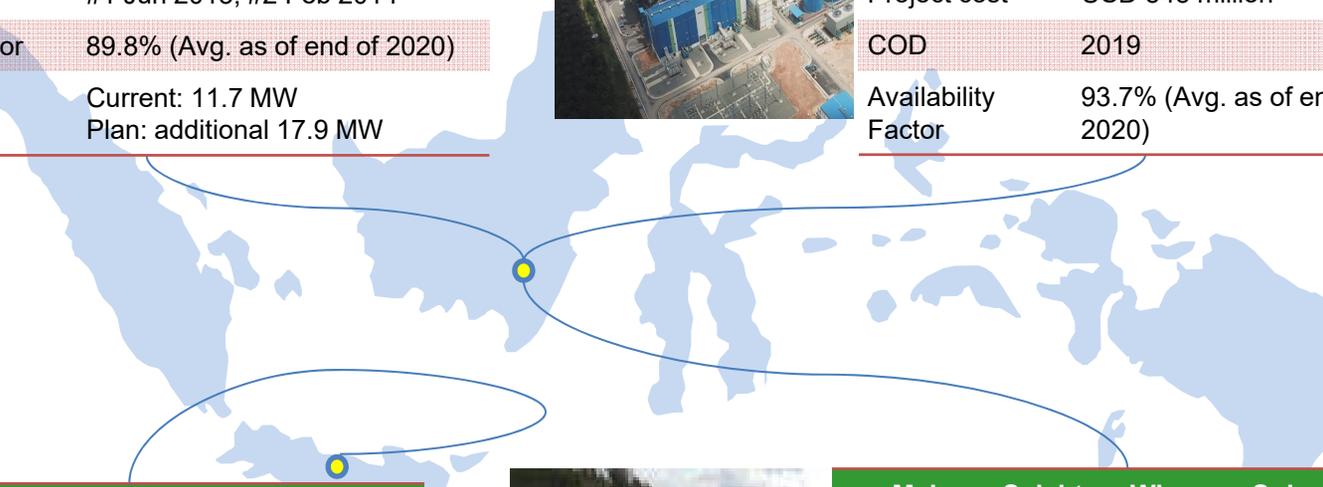

Adaro Power is one of the largest IPP in Indonesia with 2,260 MW of gross power generation capacity

Makmur Sejahtera Wisesa – CFPP	
Size / Tech.	2 x 30 MW CFB technology
Shareholders	100% Adaro Power
COD	#1 Jun 2013, #2 Feb 2014
Availability Factor	89.8% (Avg. as of end of 2020)
Adaro Mining Electrification	Current: 11.7 MW Plan: additional 17.9 MW

Tanjung Power Indonesia – CFPP	
Size / Tech.	2 x 100 MW CFB technology
Shareholders	65% AP, 35% Korea EWP
Project cost	USD 545 million
COD	2019
Availability Factor	93.7% (Avg. as of end of 2020)

Bhimasena Power Indonesia – CFPP	
Size / Tech.	2 x 1,000 MW Ultra Super Critical
Shareholders	34% AP, 34% JPower, 32% Itochu
Project cost	USD 4.2 billion
Progress	94,7% as of end of 2020

Makmur Sejahtera Wisesa – Solar PV	
Size	130 kWp + 467 kWp
Shareholder	100% Adaro Power
COD	Q3 2018 (for 130 kWp) & 467 kWp to complete by Q1-2021
Project cost	USD 800,000 (approx.)

Apart from improving the performance of its already-operated power plants and completing the construction, Adaro Power continues to study renewable power projects such as biomass, wind power, and solar PV to support PLN through unsolicited proposal and tenders. Adaro Power is also in the process of developing captive use power generation projects for the Group's other business units such as IBT (Genset & Solar PV) and AMC (Mini-hydro)

Adaro Water currently owns & operates 1,670 Ips of WTPs, as well as supporting mining operations through its slurry management business unit

Dumai Tirta Persada	
Location	Dumai, Riau
Size	450 Ips
Adaro shares	49%
Status	First phase (50 Ips) completed and

Adaro Wamco Prima	
Location	Tanjung, South Kalimantan
Business	Mining pumps services
Adaro shares	60%
Status	Operation

Drupadi Tirta Intan	
Location	Banjar, South Kalimantan
Size	500 Ips
Adaro shares	100%
Status	In operation since 2012

Drupadi Tirta Gresik	
Location	Gresik, East Java
Size	400 Ips
Adaro shares	100%
Status	In operation since 2012

Adaro Tirta Mentaya	
Location	Sampit, Central Kalimantan
Size	320 Ips (contract) 400 Ips (capacity)
Adaro shares	90%
Status	In operation up to 250Ips & Construction (93% as of end of 9M20) (up to 150Ips)

Adaro Water is currently in the process to achieve operational excellence through continuous improvement in its operating subsidiaries, including WTPs operations and slurry pumps operations. Meanwhile, on the construction side, Adaro Water continues to ensure that the project can achieve its goals in terms of schedule, budget & quality. From business development perspective, Adaro Water continues to actively seeking for new projects through PPP, non PPP and acquisition.

Sustainability and Green Initiatives

Balance of People, Planet and Profit

- We strive to balance our responsibilities among the generation of profit, the utilization of planet and employment of people.
- Our corporate social responsibility programs focus on five main areas: education, economic development, health, environmental enhancement, and socio-cultural enrichment.
- Our environmental programs cover four main areas: land, air, water, and biodiversity.
- Adaro Energy is rated BB on MSCI ESG ratings.

Adaro Energy 2021 Guidance

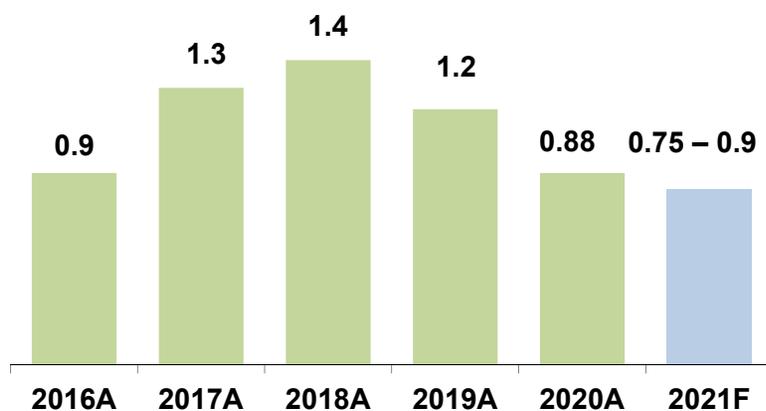

Coal production (Mt)

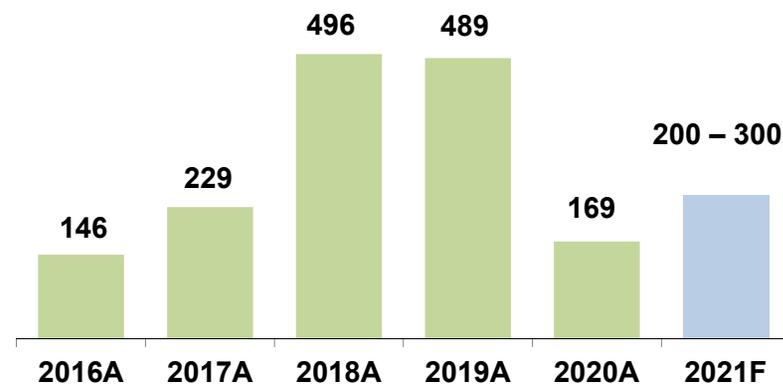

Consolidated planned strip ratio (bcm/t)

Operational EBITDA (US\$ billions)

Capital expenditure (US\$ millions)

Conclusions and takeaways

- Despite alternative energy push, coal will remain as an important part of the global energy mix, especially in Asia where coal continues to dominate the energy mix of most countries in years to come due to its availability and affordability.
- Advanced technologies used in new coal fired power plants enable the use of coal with lower heat value and prefer the use of coal with low pollutant content, which will benefit Indonesian coal producers.
- Long term fundamentals for coal remains promising.
 - ✓ Indonesia, Southeast Asia and South Asia will be the main demand drivers.
- Adaro's integrated business model has been proven to be resilient during difficult market condition as it enables us to better control our costs and risks.
- Adaro offers a complete portfolio of coal products from low CV thermal coal to premium hard coking coal, providing us with flexibility in the coal market.
- Adaro pays regular dividend with average payout ratio of ~40% since IPO in 2008. In total we have paid more than US\$1.6 billion in dividend.

Thank You
